

**ADDITIONAL INFORMATION TO THE MSC CRUISES PRE-CONTRACTUAL INFORMATION DUE TO COVID
19 EMERGENCY FOR CRUISES SAILING 30th SEPTEMBER 2021 AND/OR ANY LATER DATE UNTIL
FURTHER NOTICE.**

Due to Covid 19 emergency, Passengers are asked to carefully read, acknowledge and accept the following measures that will be in force during the cruise, starting from the departure until disembarkation:

At embarkation

- Passengers are invited to wear a mask and bring with them a sanitizing gel on their way from home to the ship.
- Each Passenger named in the Booking will receive with the ticket a health questionnaire to be filled in, signed and given to the medical staff at the berth not earlier than 6 hours before embarkation.
- Depending on the evolutions of the MSC Cruises' Health & Safety Protocol as well as the guidelines from national and international Health Authorities, Passenger may be required to undergo a COVID-19 test before embarkation. Conditions about the relevant timing and type of test vary according to itinerary and international mobility restrictions. Should the Passenger test positive, he/she will be denied embarkation and will be provided with shore assistance. Passengers may be required to prove to have received at least 2 (two) doses of WHO approved COVID-19 vaccine, as well as to show a negative polymerase chain reaction (PCR) test or antigen rapid test as the case may be. Any relevant further details shall be timely communicated by the Company through its usual communication channels.

- Passengers are required to arrive on the pier according to the time schedules indicated in the cruise ticket to reduce the risks of mass gatherings.
- Before boarding the ship and at each time of embarkation after a shore excursion, Passengers will undergo a temperature screening. In case of temperature equal or above 37.5 degrees/99.5 F°, boarding will be denied on the grounds of safety.
- Should the medical staff deem it appropriate, Passengers may be subject to further testing and medical evaluation until cleared for boarding.

During the cruise

- Passengers shall be subject to daily temperature checks and/or any other health and safety measures as deemed appropriate by the Company, the ship's doctor or the Master.
- Free medical assessments for any COVID-19 related symptoms will be available throughout the cruise.
- Passengers shall abide by the measures prescribed by the Company to implement social distancing between Passengers - as well as between Passengers and crew- in all public spaces in accordance to the guidelines given by the Authorities.
- In addition to maintaining social distancing, unless otherwise stated in onboard signage, Passengers shall be required to always wear face masks in the indoor public areas, except when seated in bars and restaurants. When outdoor, face mask is mandatory only when a safe distance cannot be maintained, unless onboard signage states differently.
- All entertainment activities shall be organized according to specific protocols to be followed on board, including but not limited to, cleaning and disinfection of the materials, limiting number of participants, social distancing, wearing of face mask.
- Onboard services may be subject to changes based on local regulations or other restrictions adopted or referred to the COVID-19 situation.

Guests will be able to go ashore independently according to local requirements which are continually monitored and subject to change. Guests who are travelling with unvaccinated children are also able to go ashore independently. For the best ashore experience, we recommend all guests to explore destinations with the comfort, convenience and safety of an MSC Cruises Shore Excursion, bookable pre-cruise and onboard. Some excursions will require the EU Digital COVID certificate (Green pass) or, from extra Schengen countries, the equivalent Covid certificate.

Insurance coverage

- Each Passenger is encouraged to have in place an insurance policy covering, from the time the Holiday Package has been confirmed to the end of the Holiday Package, Covid 19 related risks such as related risks, such as cancellation, interruption, repatriation expenses, quarantine, medical assistance and related expenses, as well as hospitalization.

Update: 17/6-2022
